

UTILITY ACCOUNT NUMBER

COVID-19 PAYMENT PLAN

King County Water District No. 49 (WD 49) has established an interim policy to assist its customers that have been impacted by COVID-19 to the extent that water utility services will be subject to late fees and disconnection upon the expiration of Governor Inslee's Proclamation 20-23 on September 30, 2021. As responsible utility stewards and in accordance with applicable law, WD 49 must require any delinquent accounts be brought current. WD 49 is providing options for long-term payment arrangements (up to 18 months) for water customers with less than \$1,500 in arrears. For water customers who owe more than \$1,500, a payment plan of 18 months is available with the understanding that a lien will be filed on your property. The homeowner is responsible for the actual cost of recording the lien (including the lien release) which is currently \$206.00, plus a 10% administrative fee. Customers that don't enter into a formal payment plan with WD 49 will be subject to WD 49's existing policies relating to delinquent accounts.

| The purpose of this plan is to assist WD 49's customers with a temporary payment plan for past due water bills due to the impact of COVID-19. Customers must apply for the payment plan by December 31, 2021, to avoid late fees and disconnection of services. A payment plan will only be extended to homeowners/landlords for the payment of arrearage since the homeowner/landlords are ultimately responsible to the utility bills. WD 49 will contact you by phone or email to review or approve your application for a COVID-19 payment plan. If you have questions or concerns, please contact the WD 49 office at (206) 242-8535 or info@email.com . Failure to comply with a payment plan will result in the cancellation of the agreed upon payment plan. | | |
